MANAGEMENT DISCUSSION AND ANALYSIS REPORT

MANAGEMENT DISCUSSION

Industry Structure and Development

The Sewing Machines and Domestic Appliances industry in India continues to be dominated by the small scale sector with imports of appliances largely from China. The Make in India initiatives and the implementation of the Common Goods and Services Tax for all states are expected to impact these industries albeit others also to transform to higher growth with better productivity. The sewing machines market in India continues to maintain its low growth though more shifting to rural markets. The Zig Zag and Electronic Sewing machines offer higher potential for growth in the urban markets and also serve as the replacement market for the conventional sewing machines. The up gradation to high end artisan sewing machines is also being witnessed even with the household customers. .

Domestic appliances market offers a huge potential with sustained growth rate in India with rising households and income levels.

Outlook & Opportunities

Considering the current market share of your Company, there is potential to increase its share both in straight stitch and Zig Zag segments. The Company will expand its reach in the markets where it has gaps at present including formulating the strategy for entering rural markets in a phased manner.

The Domestic appliances market, which is a large and growing market, offers tremendous opportunity to the Company to expand this business with its strong brand recall.

Threats, Risks & Concerns

The Company had identified the following Risk areas in the Risk management policy.

1. Low growth of sewing machines market
2. Strong competition in all business segments
3. Sourcing
4. Foreign Exchange

. The Board of Directors of the Company and the Audit Committee of Directors will periodically review the risk management policy of the Company so that the Management controls the risks properly.

DIRECTORS' REPORT

Segment-wise Performance

Sewing Machines Business

The Company's core business remains the sewing machines. Efforts would be directed to increase penetration in rural markets with specific models as the market requires. The artisan range will be more developed by introducing high end semi- industrial sewing machines.

The Zig Zag range which offers many features more than just sewing to the consumer to operate on mechanical, electronic and computerized machines will be expanded with reaching out to the target customers through digital marketing.

Sewing carded notions and other accessories have been added to the sewing products range to add to the turnover and expand reach to the customers.

Domestic Appliances

While the sewing machines business will be protected and expanded, the driver for growth in future will be the Domestic Appliances business. The segment results are given in the Note 49.

The Company has a wide range of kitchen and home comfort small appliances and the year under review the Company also had successfully introduced air- coolers and soon the heating range with water heaters will be introduced. These product lines will be expanded in future.

As the Domestic Appliances Business required initial investment in form of setting after sales service and logistics, hiring employees for this separate vertical, this business is not able to make profits with the turnover that was achieved during the year ended 30th June 2015.

The efforts are on to reach the break-even point for this business soon and make this business a profitable business eventually.

Internal Control Systems and Adequacy

The Company has adequate systems of internal controls for operations, optimum utilization of resources, effective monitoring and compliance with all applicable Rules. The internal control system is commensurate with the size and its nature of operations.

NOTES TO THE ACCOUNTS

1. Corporate Information

Singer India Limited ('the Company') is a Public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is engaged in the business of trading / manufacturing of sewing machines and trading in domestic appliances. The Company has also undertaken contract and limited manufacturing of sewing machines.

2. Significant Accounting Policies

(a) Basis of Preparation

The financial statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013 ('the Act'), read together with paragraph 7 of the Companies (Accounts) Rules 2014 and provisions of the Act, to the extent notified. The financial statements have been prepared on an accrual basis and under the historical cost convention except for certain Fixed Assets which are carried at revalued amounts and on going concern basis.

(b) Use of Estimates

The preparation of the Financial Statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reporting balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reporting amounts of income and expenditure during the year. Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated. Actual results could differ from such estimates. Any revision to accounting estimates is recognized in the period the same is determined.

(c) Fixed Assets (Tangible & Intangible)

Tangible Fixed Assets are stated at cost (or revalued

amount as the case may be), less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price / cost of acquisition including taxes, duties, freight and other incidental expenses related to acquisition, construction and installation to bring the asset to its working condition for its intended use. In case of revaluation of fixed assets, the original cost as written up by the valuer, is considered in the accounts and the differential amount is transferred to revaluation reserve. Borrowing costs that are directly attributable to acquisition, construction or production of a qualifying asset are capitalized.

Intangible fixed assets are stated at cost less accumulated amortization and net of impairments, if any. An intangible asset is recognized if it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and its cost can be measured reliably. Intangible assets having finite useful lives are amortized on straight line basis over their estimated useful lives.

(d) Impairment of Assets

Regular review is done to determine whether there is any indication for impairment in carrying amount of the Company's fixed assets. If any indication exists, an assets recoverable amount is estimated based on internal / external factors. An impairment loss is recognized if the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

(e) Investments

Long term investments are stated at cost. Provision for diminution in value, other than temporary, is made in the accounts. Earnings on investments are accounted for when the right to receive payment is established.

(f) Inventories

Raw materials are valued at Lower of cost and net

NOTES TO THE ACCOUNTS

realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a First in First out basis.

Work-in-progress and finished goods are valued at Lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty. Cost is determined on a First in First Out basis.

Traded goods are valued at Lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a First in First out basis.

Goods in transit are valued at cost

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion to make the sale.

(g) Warranties

NOTES TO THE ACCOUNTS

accordance with the Indian Income Tax Act, 1961. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

Any such write-down is reversed to the extent that it becomes reasonable certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Minimum Alternate Tax (MAT) is accounted for in accordance with tax laws which give rise to future economic benefits in the form of tax credits against which future income tax liability is adjusted and is recognized as an asset in the Balance Sheet.

(p) Provisions, Contingent Liabilities & Contingent Assets

A provision is recognized when the Company has a present obligation as a result of past event and it is

These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.
