About Us

Brand Legacy –

Established in the year 1851 by Sir Isaac Merritt Singer, 'Singer Sewing Machine Company' has been a pioneer in manufacturing and selling sewing machines for 170 years. The company created its foothold in India in the year 1871 and has since been synonymous with sewing and stitching across the country. While continuing its glorious journey, the company was acquired by "Indian Sewing Machine Company Limited" in the year 1977. The company was later renamed as "Singer India Limited", as we know it today, with its headquarters in New Delhi. Singer India has its manufacturing facilities in Jammu in the state of Jammu and Kashmir in India.

The Company –

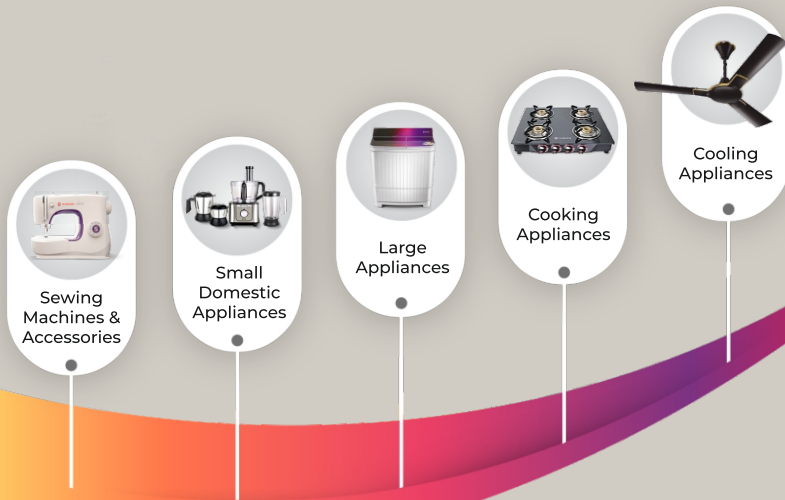

An ISO 9001:2015 certified company; Singer India Limited (SIL) has two major business segments – Sewing Products, Home & Kitchen appliances. Sewing products are marketed under the brand "Singer" & "Merritt". Sewing products include zig-zag fashion maker, straight stitch, artisan & sewing accessories. Our range of home & kitchen appliances span across air conditioners, washing machines, room coolers, refrigerators, fans, water heaters, food processors, dry and steam irons, mixer grinders, sandwich makers, toasters, hand blenders, etc.

The company has showrooms, distribution networks and a robust after sales service network Pan India.

Singer India has been recently selected and awarded with "INDIA'S MOST TRUSTED SEWING MACHINE BRAND" by Brand Trust Report 2022.
