FE BEST BANKS AWARDS ON JUNE 7

BEST PUBLIC SECTOR BANK INDIAN BANK

Scale meets prudence

GROWTH, PROFITABILITY AND ASSET QUALITY COME TOGETHER IN A DEFINING YEAR

NARAYANAN V

FOR INDIAN BANK, FY25 was more than just another year of steady growth—it was a watershed moment in the lender's 118-year history.

The Chennai-headquartered public sector bank crossed several milestones that underscored both the strength of its franchise and the success of its post-merger transformation. Net profit surged 35% year-on-year (y-o-y) to breach the ₹10,000-crore mark for the first time, while global business crossed ₹13 lakh crore, just three years after surpassing the ₹10-lakh-crore milestone.

These achievements came amid a challenging operating environment for banks. Tight liquidity conditions, driven by global uncertainties, a pause in US rate cuts and tariff-related concerns, triggered foreign portfolio outflows of over ₹1.3 lakh crore and intensified competition for deposits. Despite these headwinds, Indian Bank delivered balanced growth across key parameters.

Deposits rose 7% y-o-y to ₹7.37 lakh crore, while advances grew at a faster pace of 10% to ₹5.88 lakh crore, reflecting healthy credit demand and prudent balance-sheet management. More importantly, the bank combined growth with a sharp improvement in asset quality,

an area that has increasingly become a differentiator among public sector lenders.

Gross non-performing assets declined to 3.09%, while net NPAs fell to a historic low of just 0.19%, among the best in the industry. The improvement reflected stronger underwriting standards, effective recovery efforts and a sustained focus on risk management.

It was this combination of profitability, growth and asset-quality improvement that made Indian Bank the unanimous choice of the jury for the FE Best Banks Awards 2024-25 in the Public Sector Bank category.

Managing Director Binod Kumar attributes the performance to the bank's ability to consistently outperform its own targets. "Even though we had guided for deposit growth

of 8-10% and credit growth of 10-12%, we have been growing ahead of that trajectory," he says. "Looking ahead, we are targeting a CAGR of 12-13% over the next three years."

A key pillar of the bank's strategy is its growing focus on the retail, agriculture and MSME (RAM) segments, which now account for nearly two-thirds of its loan book. Besides offering diversification benefits, the segment also provides stronger yields than large corporate lending. The approach has helped lift the yield on advances to 8.75%, while operating profit climbed to ₹18,998 crore in FY25.

To sustain profitability, Indian Bank is pursuing a three-pronged strategy: strengthening its CASA franchise to reduce funding costs, improving recoveries to lower credit costs and expanding fee-based income through digital transaction banking. The bank has also broadened its funding sources through new deposit products, salary account acquisition initiatives and digital payment solutions such as QR codes and POS terminals. During FY25, it raised ₹10,000 crore through long-term infrastructure bonds, enhancing balance-sheet flexibility.

The momentum has continued into FY26. Indian Bank reported another record net profit of ₹12,156 crore, while total business moved closer to the ₹15-lakh-crore mark. The numbers reinforce the bank's emergence as one of the strongest and most consistently improving public sector lenders in the country—one that has successfully combined scale, profitability and prudence in equal measure.

MANAGING DIRECTOR BINOD KUMAR ATTRIBUTES THE PERFORMANCE TO THE BANK'S ABILITY TO CONSISTENTLY OUTPERFORM ITS OWN TARGETS

Binod Kumar, MD & CEO, Indian Bank

BEST PRIVATE SECTOR BANK ICICI BANK

Caution at speed

ICICI BANK HAS MADE A HABIT OF WINNING BY KNOWING WHEN TO PUSH AND WHEN TO HOLD BACK

FE BUREAU

THERE IS A PHRASE that Sandeep Batra, executive director of ICICI Bank, uses to describe what technology has done for lending: "What was once opaque has now become bankable." It is a deceptively simple line, but it captures something important about how India's second-largest private sector bank has quietly repositioned itself.

ICICI Bank's approach over the past several years has been built on an unusual combination: grow fast, but don't get sloppy. Push into new markets, but underwrite carefully. Embrace technology, but don't chase every shiny new thing. That balance—aggression tempered by conservatism—has allowed the bank to scale rapidly while building competitive advantages that are harder to replicate than a rate cut or a marketing campaign.

The clearest expression of this strategy is its growing focus on business banking. MSMEs are the backbone of the Indian economy—contributing over a third of GDP and nearly half of the country's

exports—yet they receive only 12-13% of formal credit. That gap has long existed because lending to smaller businesses was considered too risky, too opaque, too difficult to assess. ICICI Bank has used GST data analytics and deeper credit bureau insights to change that calculus, opening up a segment that was previously off-limits for much of the formal banking system. Its digital platform InstaBiz has further accelerated this push, giving businesses faster, more seamless access to banking services.

What distinguishes the bank's approach here isn't just the technology—it's the philosophy behind it. Rather than selling individual products to MSME customers, ICICI Bank aims to serve their entire financial life. The result is stronger relationships, better cross-selling opportunities and fee income that add resilience to the overall business model.

Business banking carries higher risk than lending to large corporates, and ICICI Bank is clear-eyed about that. But it also offers better yields and richer fee income—provided the underwriting is

right. The bank has maintained a conservative credit culture throughout, prioritising a borrower's actual repayment capacity over headline credit ratings. Its 7,000-plus branches are not just a distribution network; they provide on-the-ground intelligence about local borrowers that no algorithm fully replicates.

Corporate banking, meanwhile, has settled into a steadier gear. With system liquidity abundant and capital markets buoyant, large companies have had cheaper funding options available, moderating loan growth in this segment. But ICICI Bank has held its relationships firmly through transaction banking, foreign exchange services, working capital financing and cash management—businesses that generate reliable fee income and anchor the portfolio even when headline loan growth softens.

In retail, mortgages remain the anchor, accounting for nearly 30% of the loan book. Home loans are lower-margin but also lower-risk, providing stability. The bank is carefully expanding into auto loans, credit cards and personal loans, but with the same discipline it applies elsewhere.

With MD and CEO Sandeep Bakhshi receiving a two-year extension from October 2026, the bank heads into its next phase with leadership continuity intact—no small thing for an institution that has spent years carefully building its strategic direction.

THE BANK WANTS TO SCALE RAPIDLY WHILE BUILDING COMPETITIVE ADVANTAGES THAT ARE HARDER TO REPLICATE THAN A RATE CUT OR A MARKETING CAMPAIGN

Sandeep Bakhshi, CEO, ICICI Bank
